TRUTH ABOUT IVERMECTIN

I would like to address everyone's current obsession with Ivermectin because it keeps popping up like it's a miracle that will save you from a FICTIONAL pandemic when Ivermectin is a deadly bacteria that hijacks cell functions.

First and foremost what people call COVID-19 is electromagnetic radiation poisoning interacting with graphene oxides, cobra venom, fetal cells and nano-tech activated using a low frequency sound weapon because viruses are FICTIONAL. Their existence has failed to be proven over and over again by doctors and scientists for hundreds of years. Mostly because, even due to his own admission, Louis Pasteur forged his "discoveries" because he wanted to be famous. Modern germ theory is still structured around his FALSE and FORGED "results."

Ivermectin is the bacteria *Streptomyces avermectilis* synthesized in a lab to be what is classified as an "aggressive" bacteria. Before it is synthesized to be more aggressive, *Streptomyces avermectilis* is both a common as well as a deadly bacterial strain. It is the number one cause of death in hospitals and nursing homes. *Streptomyces avermectilis* causes pneumonia, respiratory failure, confusion, tremors and death. Sound like familiar symptoms? Additionally, it is often found in buildings with severe water damage, and/or black mold resulting in pneumonia, respiratory issues and even death to anyone living or working in or around these structures.

Though technically a bacteria, *Streptomyces avermectilis* produces more like a fungus producing and spreading fungi looking conical spores. Ivermectin is a more concentrated deadlier "more aggressive" form of *Streptomyces avermectilis* synthesized in a lab by pharmaceutical companies who are known for producing poisons under the branding of "medicine" that are known to have less medical benefits than the harm they cause to our physical, emotional, cognitive and spiritual bodies.

Ivermectin / *Streptomyces avermectilis* is a deadly bacteria used to kill certain parasites, however it FAILS to kill and expel parasite larvae. This means when you stop taking it the parasites come back so you have to keep taking it so they kill new cycles of parasites and so on and so forth perpetually. Of course this FAILS to address why you have parasites in the first place so you continue doing and eating the same things you've always done while taking your daily Ivermectin as it makes you sicker and sicker.

You can look forward to vomiting, nausea, seizures, low blood pressure, decreased consciousness, confusion, hallucinations, drowsiness, tremors, rapid breathing, pneumonia, respiratory failure and death.

FOOD FOR THOUGHT: Harmful bacteria and fungi are UNABLE to live and reproduce in an oxygen rich environment. *Streptomyces avermectilis* actually decreases oxygen levels in your blood.

So, what does *Streptomyces avermectilis* do? It binds to our cell's glutamate ion chambers hijacking their function. This disrupts your body's ability to perform unconscious functions like breathing and moving your muscles as well as controlling your feelings and behavior, your body's ability to absorb vitamins and minerals and convert them into energy and removing waste from your cells and your entire body.

In summation, Ivermectin is a pHARMacuetical HARMFUL DRUG synthesized from a deadly bacteria that prevents our cells from reproducing, controls our behavior, causes pneumonia, respiratory failure and death.

- ✓ Ivermectin FAILS to raise oxygen levels in blood
- ✓ FAILS to kill and expel parasite larvae
- ✓ FAILS to protect or prevent pneumonia and/or respiratory failure

WE HAVE SO MANY CHOICES THAT COST PENNIES!!!!

1. Distillate of essential oil of the pine tree i.e. distilled pine sap or Turpentine taken orally once a week kills parasites and larvae as well as raising blood oxygen levels, increasing collagen production, decreasing inflammation, anti-aging, increased flexibility and on and on with side effects of tasting like pine sol. *Email us directly for the full protocol.*
2. Hydrogen peroxide therapy increases oxygen levels in the blood boosting your immunological library to fight off harmful bacteria, fungi, mold, etc. Also, use daily sprayed deep into the lungs keeps lungs clear, healthy and strong. We mix 3% of a 35% food grade safe hydrogen peroxide with 97% purified water in a travel size spray bottle. One by the bathroom sink and one in my purse. *Email us directly for the full protocol.*
3. Zinc Gluconate is the most powerful and efficient antibiotic in the realm everyone can afford. There are different kinds of zinc and it is Zinc Gluconate that is produced by your glutamate ion chambers that is the BEST antibiotic and everyone can afford it. Most doctors and naturopaths recommend less than our bodies need daily. Infections require 500-5,000mg and up to 10,000mg a day depending on the severity and type of infection. A healthy body requires 100mg of Zinc Gluconate a day because even a "healthy body" is living in an unhealthy realm.
4. Treat the cause: electromagnetic radiation poisoning is effectively treated with turmeric and cilantro. *Email us directly for the full instructions.* We also recommend [Aulterra](#) products to protect you, your family and your home from 5G and EMF radiation as they are the only company that has scientific research demonstrating the effectiveness of their EMF neutralizing products.

There are so many natural, safe and effective CURES. *Streptomyces avermectilis* is a harmful and sometimes deadly bacteria.

Then why do so many people believe that Ivermectin “cured” their Covid? Because they did feel better in the first several weeks after taking it. The parasites were out of their bodies, however, because Ivermectin FAILS to kill the parasite's larvae, new parasites will hatch and symptoms will begin to develop again. It is a band-aid for a bullet wound solution that is unnecessary when there are so many safe, affordable and natural solutions backed by science with hundreds and sometimes thousands and even over 100,000 years of documented use. Yes, it is that simple and if you DO NOT want to play Russian roulette with your life email us, we can help.

May your life be full of great joy with the health and abundance to enjoy it.
